ALSIKE

MORE ECONOMICAL and MORE PROFITABLE
RESULTS COMPARE FAVORABLY
WITH
RED CLOVER

Recommend ALSIKE in place of Red Clover

BECAUSE: —

1. **ALSIKE** is a perennial. Red clover a biennial.
2. **ALSIKE** Hay more palatable—contains 60% leaf against 40% for Red Clover.
3. **ALSIKE** has more root, consequently stands greater ranges of temperature. Less liable to “winter kill.”
4. **ALSIKE** not subject to “clover sickness” so can be continuously planted on same land.
5. **ALSIKE** can be cut for hay over a longer period than Red Clover.
6. **ALSIKE** costs less than Red Clover—takes less to sow an acre.

Larger Profits: WHY?

ALSIKE—quality better, price lower than Red Clover—price usually higher quality inferior. You can add more profit to Alsike than you can to Red Clover at the same time keep the price lower.

We are carrying Larger Stocks having already experienced
a heavy demand for **ALSIKE**.
